

### RING MAINS PANEL PA8/290

#### General

The ring mains panel PA8/290 is an auxiliary panel in the Type-D range of modular equipment for sound desks. It contains two ring mains selection switches (one for cubicle and one for studio distribution) fitted with additional wafers to enable stereo programmes to be selected. There is also a key to mute the studio loudspeaker.

The equipment is mounted on a CH1/37A chassis having overall dimensions of 7 by 2¼ by 10 inches.

#### Circuit (Fig. 1)

The key and four-pole 11-way switch are wired as shown on Fig. 1.

In a typical installation the distribution circuit is completed via a monitoring panel PA8/289.
